

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

DEC 16 1980

Exchange of Air Emission Sources for Waterflood Project

Michael M. Johnston, Chief
New Source Permits Section (M/S 521)

Robert G. Courson, Chief
Technical Support Branch (M/S 329)

As discussed with representatives of the Prudhoe Bay Unit Owners on October 23, 1980 we indicated that we would be inclined to "swap" equipment if certain requirements could be shown. These requirements are highlighted on page two of the attachment.

Please review the attached document to determine if the requirements will be met.

In order to expedite this request, please feel free to contact the Company directly for any information you need. Any correspondence between EPA and the Company should be routed through me for the purpose of keeping our records straight.

They have requested an approval to their request by February 1, 1981. In this regard, please reply at your earliest convenience, but not later than January 16, 1981.
